## Turn Card On or Off in CardHub

First Step is to activate your cards in the app.

You can have multiple cards: for example yours and your spouses or children

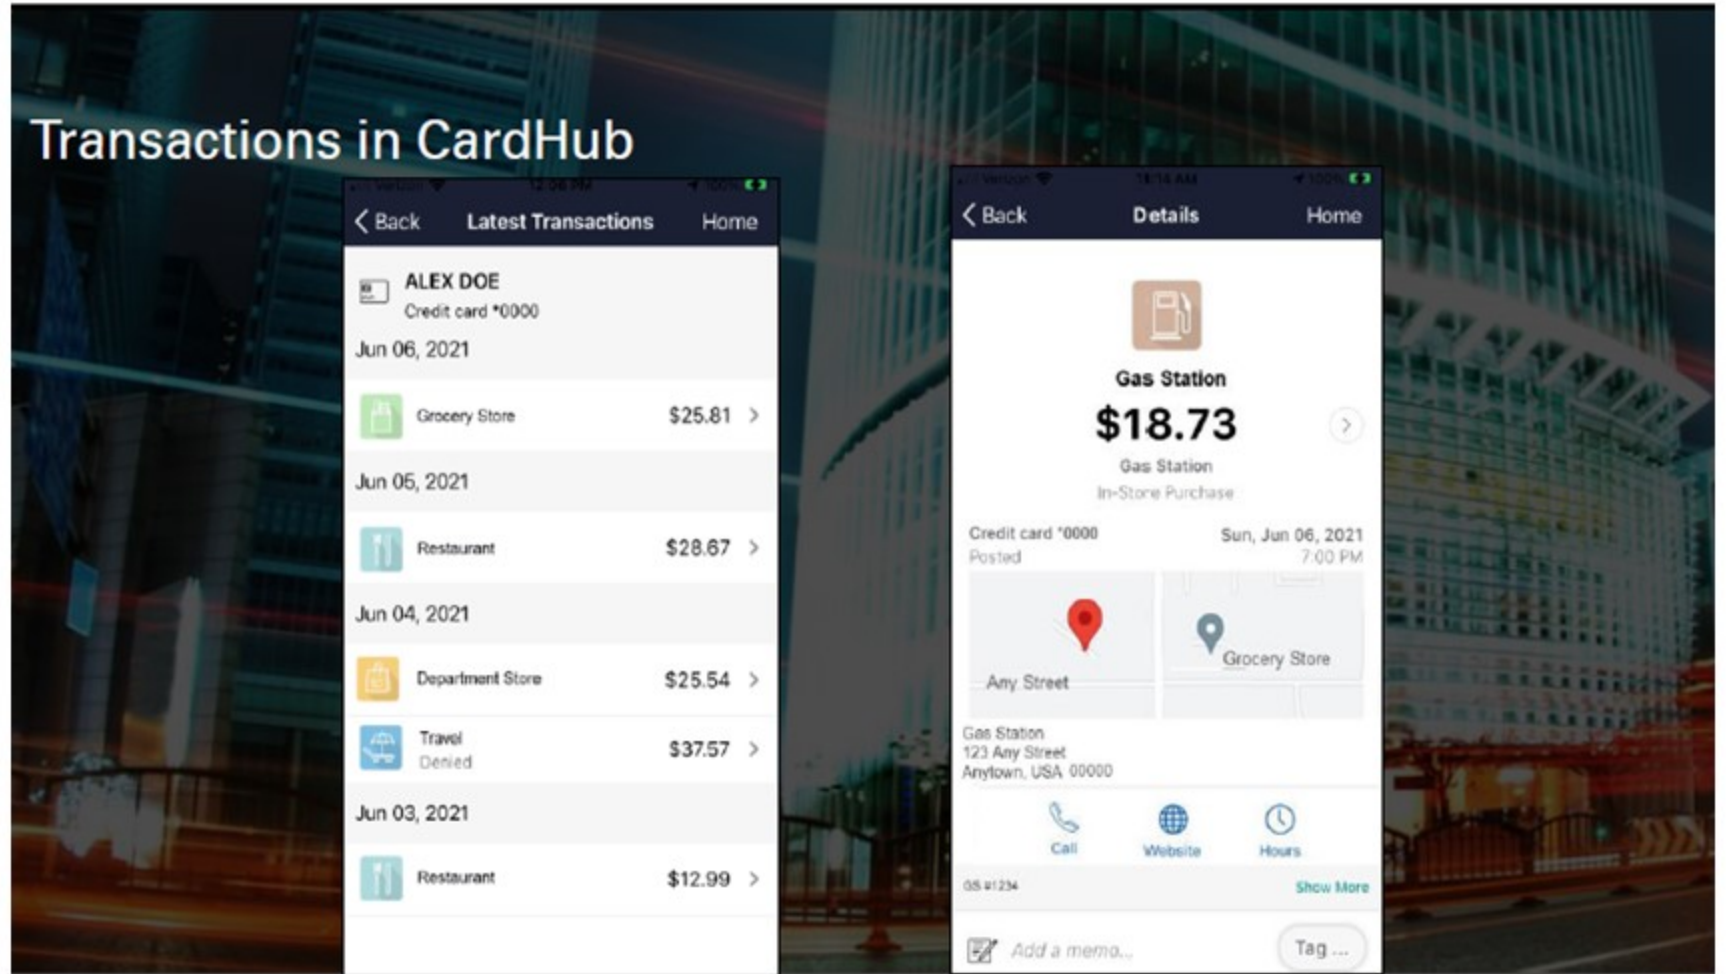

# Transactions

Main Screen shows 3 most recent.  
Can Click on view all to see more

Click individual transactions to see  
more information

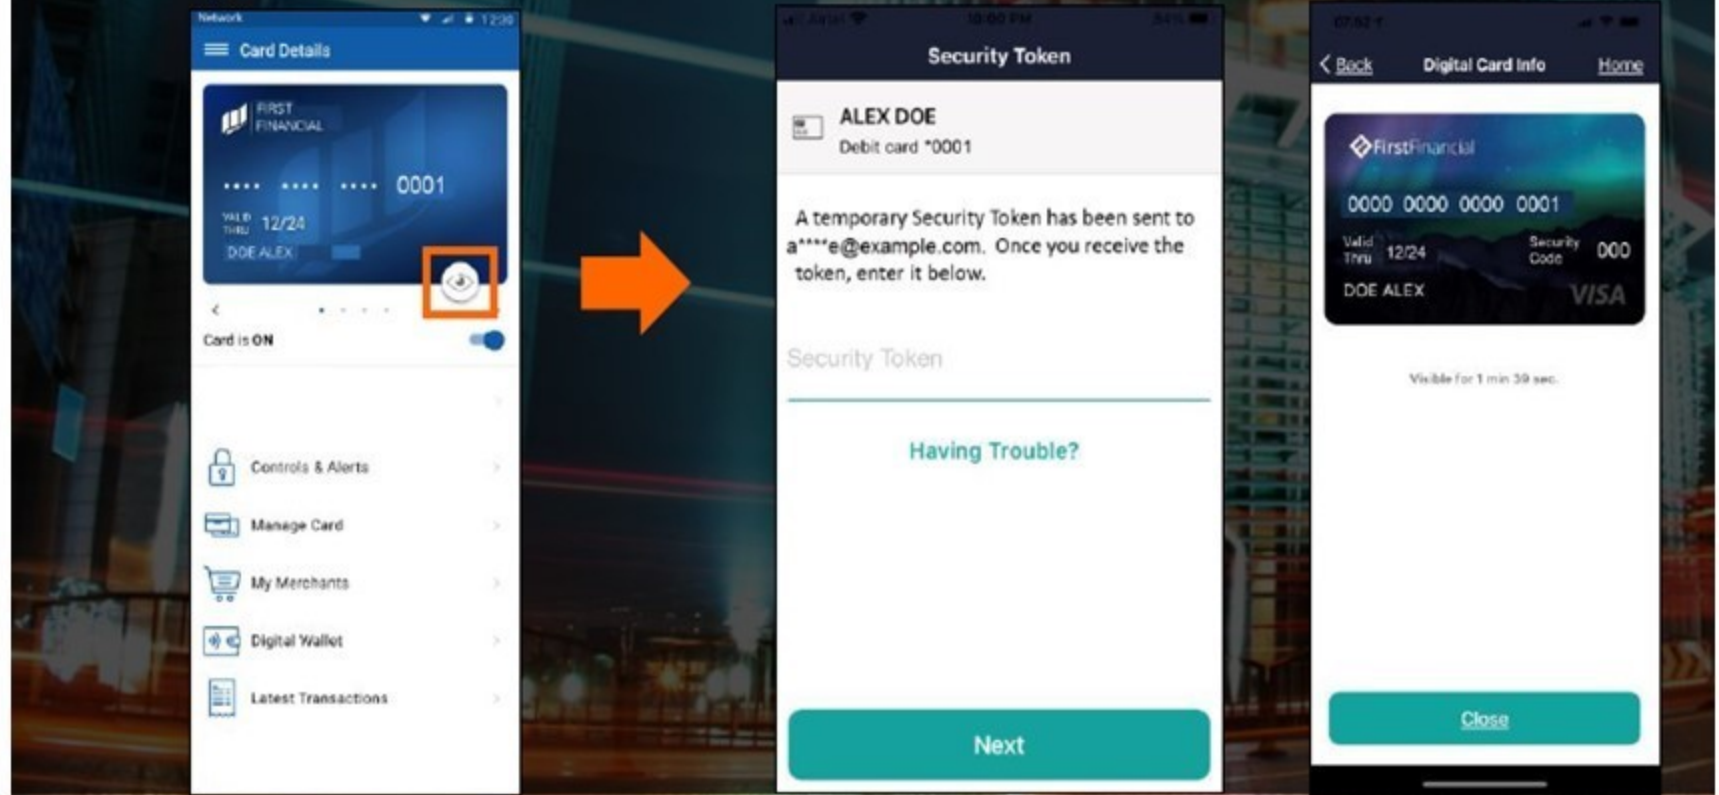

## Transactions in CardHub

# Digital Card

To use your card online when you don't physically have your card.

## View Digital Card in CardHub

# Spend Insights

Keep in Mind this is spend activity on your card, not necessarily your account as a whole.

## Spend Insights in CardHub

## Recurring Payments in CardHub

# Card on File

### Two Options

Recurring Payments: subscriptions you have tied to your card.

Card on File: Merchants that have your card information. Example: Store Apps.

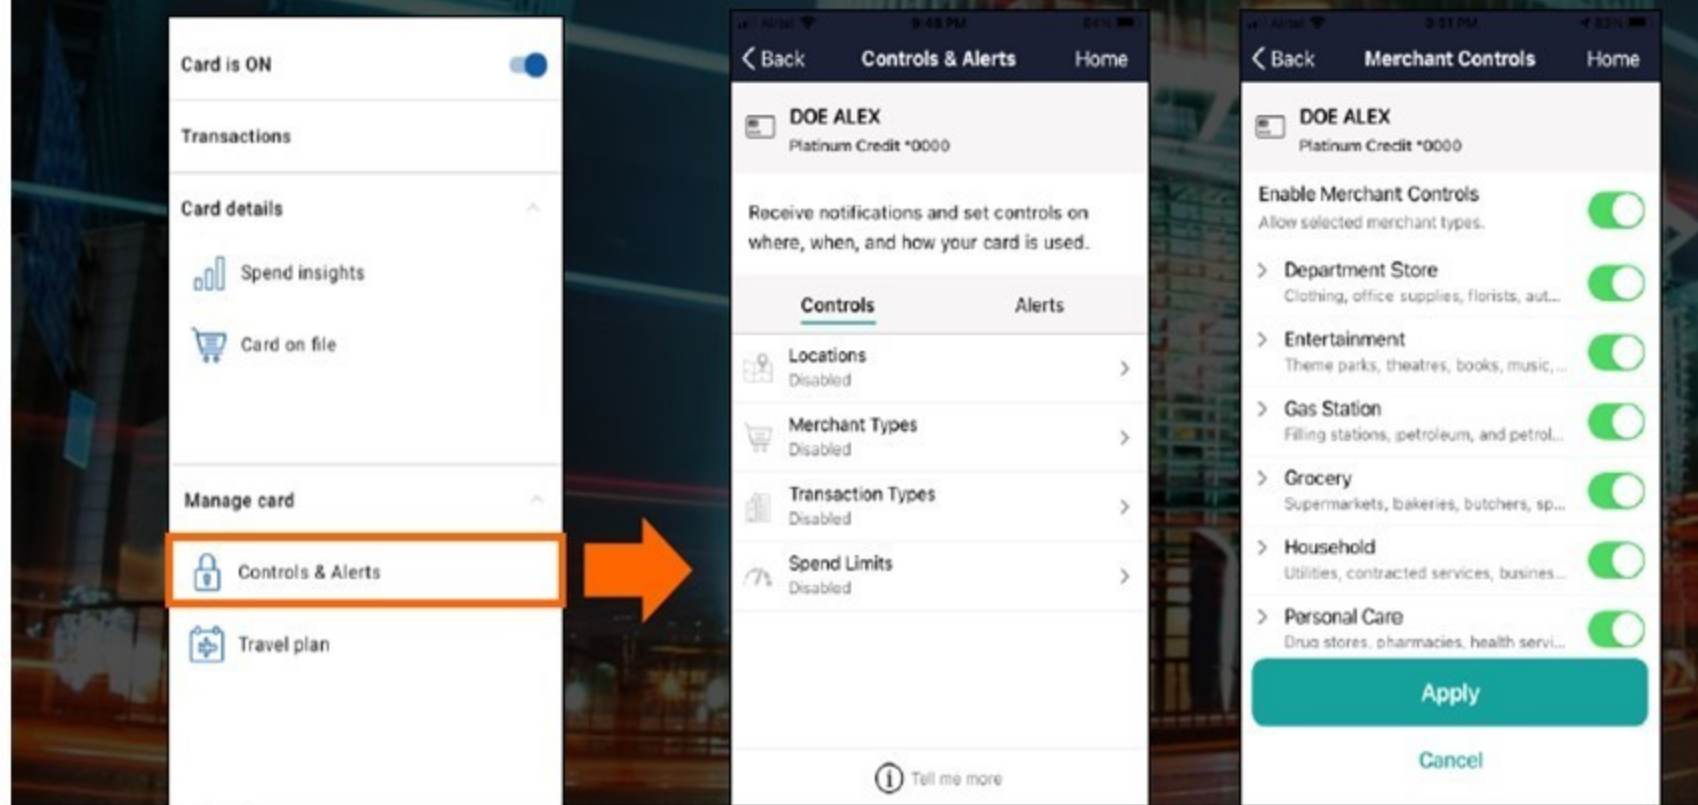

# Controls

Can set controls on spending based on location, merchant types, transaction types, and/or dollar amounts

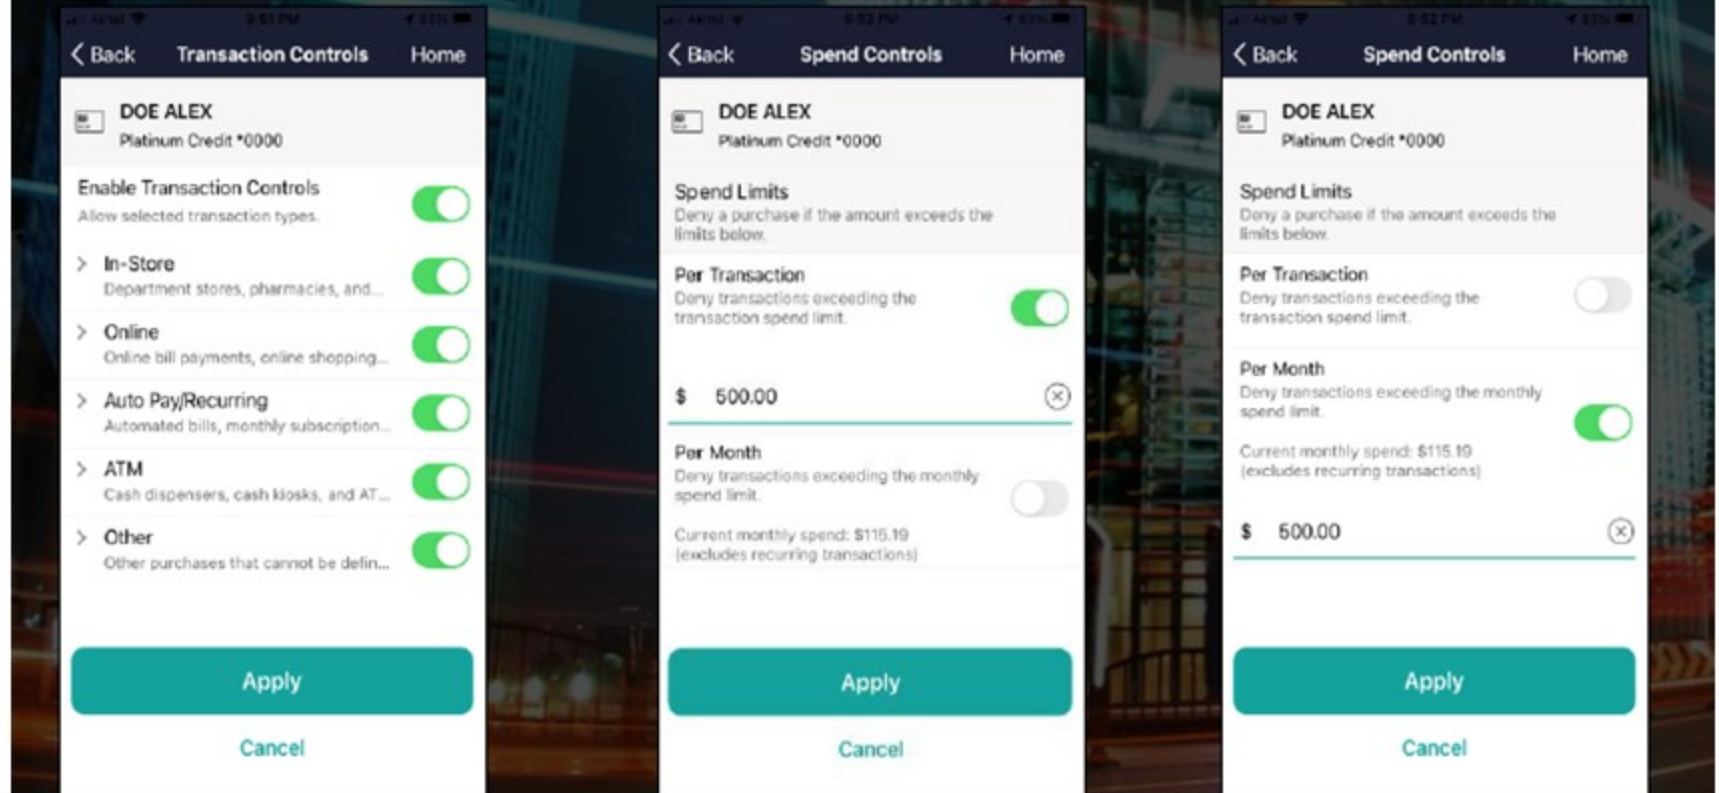

This for the debit card not your account as a whole.

## Controls in CardHub

## Controls in CardHub (continued)

# Alerts

Can enable alerts based on locations, merchants, transactions, or dollar amount.

These are based on card activity not account.

## Alerts in CardHub

The image displays four sequential screenshots of the CardHub mobile application interface, illustrating the process of enabling alerts for a credit card. The cardholder's name is identified as DOE ALEX with a credit limit of \*0000.

- CardHub Home:** The main menu shows options like "Card is ON", "Transactions", "Card details", "Spend insights", "Card on file", "Manage card", "Controls & Alerts" (highlighted with an orange box), and "Travel plan".
- Spend Alerts:** This screen allows setting dollar-based alerts. It includes sections for "Spend Limits" (Alert me if the amount exceeds the limits below), "Per Transaction" (Alert me when a transaction exceeds the transaction spend limit), and "Per Month" (Alert transactions exceeding the monthly spend limit). The current monthly spend is \$27.15. A limit of \$ 500.00 is set.
- Merchant Alerts:** This screen allows enabling alerts for specific merchant categories. Categories include Department Store, Entertainment, Gas Station, Grocery, Household, and Personal Care. The "Enable Merchant Alerts" toggle is turned on.
- Transaction Alerts:** This screen allows enabling alerts for specific transaction types. Categories include In-Store, Online, Autopay/Recurring, ATM, and Other. The "Enable Transaction Alerts" toggle is turned on.

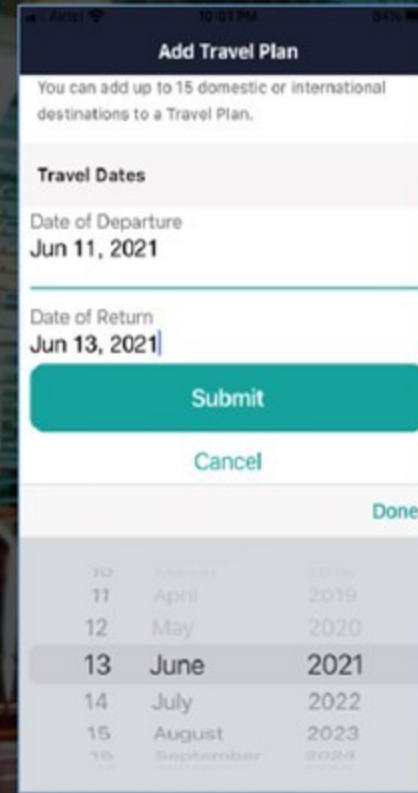

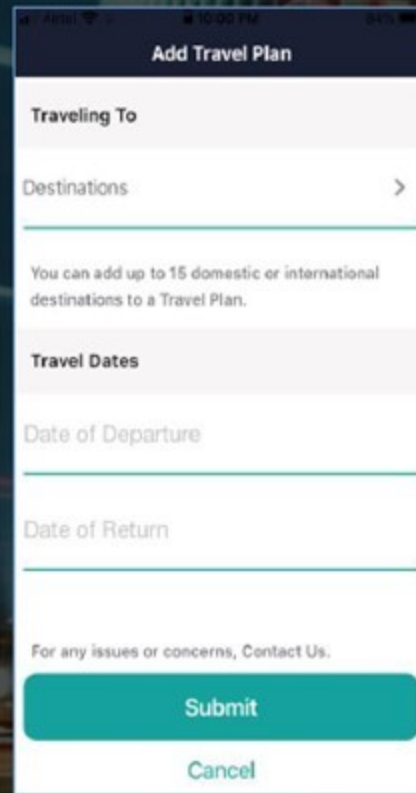

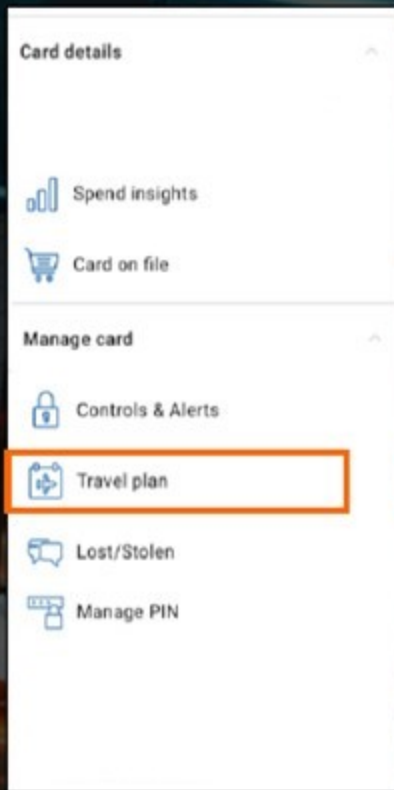

Each settings screen includes an "Apply" button and a "Cancel" button.
